

One of the first and main goals for Rovers was to create happy, healthy and useful citizens. Rover is about developing yourself as a good person, through providing leadership opportunities and a wide range of useful and memorable experiences that you would not be able to get otherwise. The main focus of these experiences is to provide service to yourself, Scouting and the community in general. Rovers should lead the way in setting good examples to younger members of the community and Scouting.

To encourage scouts to get new knowledge about scouting and surviving skills.

- To explore and get new experience for serving to the community consistently.
- To facilitate and promote teamwork.
- To promote leadership and responsibility in all scouts members.

Our annual programme would be Vigil which we've done in CFS itself and also one at the beach. We also collaborate with Rover Scout IIUM Kuantan, Rover Scout Kuantan and other scouting programs in Malaysia.
